

## CUSTOMER FOCUSED SOLUTIONS

d-Wise builds solutions focused on solving your company's technology and business process challenges.

## SYSTEM INTEGRATION

d-Wise successfully helps build bridges between your disparate systems automating the flow of information.

## DATA STANDARDS

d-Wise designs, develops, and implements data standards significantly improving your company's efficiency and automating processes

## TECHNOLOGY ADOPTION

d-Wise understands technology is only a small piece of improving your business model. The most critical part is the people and your ability to manage the changes technology brings to your organization.

# dWise

Moving Beyond the Data

## SAS Alliance Member

- *Unique combination of industry and technology experience to understand both your technology and business process challenges*
- *Decades of experience from within SAS R&D and Consulting developing and implementing SAS solutions*
- *Understanding and experience with managing change – the most critical component of implementing new technology*

## Delivering SAS Solutions

**SAS Institute** has proven to be the leader in business intelligence, data warehousing, and analytics.

As an alliance partner, **d-Wise** provides the right solution by combining deep industry knowledge within Life Sciences and Health Care along with extensive experience of the SAS platform .

This unique combination of developing **SAS** products with years of delivering those same solutions within real world scenarios provide a strong foundation to ensure customers optimize their use of the **SAS** award winning solutions.

## Experience

While **d-Wise** has a broad range of capabilities across many technologies, our core competency lies in SAS solutions. With decades of experience in developing and implementing SAS products, **d-Wise** has the unique advantage of understanding all the capabilities, strengths, and challenges of SAS software.

## Research & Development

Unlike other SAS partners, the majority of **d-Wise** consultants have spent time within the SAS R&D organization, including strategic roles within key solutions. With this unique breadth of experience, **d-Wise** knows all the advantages, and more importantly, the challenges of using the SAS solutions.

## Consulting & Education

**d-Wise** consultants have spent decades within both SAS Consulting and Education and can provide a unique perspective of implementing SAS solutions by understanding the ins and outs and knowing all the 'tricks'.

## Technology Adoption

Most importantly, **d-Wise** understands the critical need to plan for knowledge transfer during a technology adoption process and will make sure the business understands the benefit of the SAS solution.

**d-Wise** ensures successful technology deployments by *moving the beyond the data* to focus on the comprehensive technology adoption process as a foundational component of our approach to doing business.

## SAS Services

### Implementation

**d-Wise** manages your SAS implementation from the beginning to ensure that a clear and concise set of expectations are delivered to all levels of your organization – from the business sponsor to the everyday users of the solution. Services include:

- Defining and managing the project plan, including timelines and deliverables
- Facilitating user requirement and design meetings throughout the organization
- Deploying and configuring the software to meet your requirements
- Producing all project documentation, including requirements, design, validation and training

### Best Practices

With our vast knowledge in developing and implementing SAS solutions combined with targeted industry expertise, **d-Wise** provide a complete package to deliver the right SAS solution for your company.

**d-Wise** has continuously helped customers define best practices in using SAS solutions and has the added capability of developing custom components with a variety of technologies to fill gaps in the process.

**d-Wise** helps your organization tackle the challenges of implementing SAS solution to successfully improve your business by understanding the critical component of technology adoption during the implementation process.

## Alliance Member

As a Silver Member of the SAS Alliance program, **d-Wise** has the opportunity to partner with your organization and provide the personal touch of a small company who can help you define the best set of tools for your business needs. **d-Wise** has range of experience in the SAS Technologies.
